

Instapak Quick® Foam Packaging

Innovative, Convenient Packaging With A Low Start-Up Cost

Instapak Quick® Packaging: All the cost-saving benefits of foam-in-bag packaging in a convenient compact system.

- **The Ultimate in Product Protection:** Offers all the protection of Instapak® foam during shipping, warehousing and general handling.
- **Easy-to-Use:** In minutes, anyone can become a packaging expert.
- **Versatile:** Economically and efficiently protects products of almost any size, shape and weight.
- **Fast:** Expands in seconds to form custom-fit cushions.
- **Space-Efficient:** The equivalent of a room full of packaging material can be stored in a single carton.
- **Convenient:** *Just-in-time* packaging for any size company.
- **Customer Satisfaction:** Your customer receives your product damage-free in a neat professional package.

Sealed Air Corporation

Instapak Quick® Packaging

Protective Foam Cushions in an Instant

Instapak Quick® foam-in-bag packaging is perfect for small to mid-size companies looking for the superior cushioning properties of Instapak® foam without a large up-front investment.

Easy To Use

1. Remove the bag from the Instapak Quick® warmer, unfold it and lay it on a flat surface.

2. Apply pressure to the "Press Here" area on the lower left side of the bag to open the inside seal.

3. Pat part "A" and part "B" back and forth and the bag will begin to expand.

4. Place the expanding foam-filled bag in the shipping carton and nestle the product onto the cushion.

5. Place a second expanding foam-filled bag on top of the product and close the carton flaps.

6. The Instapak Quick® bag expands around the product and against the carton to form a top cushion.

One small box of Instapak Quick® foam packaging can produce protective cushions for up to 24 cartons. Your products are safely protected and your company saves valuable operating space with Instapak Quick® packaging.

Environmental Profile

- Provides superior protection with minimal material. Less packaging means less waste.
- May be disposed of with ordinary trash or can be reused as carton filler.
- Can be processed in municipal waste-to-energy facilities.
- Compacts to approximately 10% of its original volume in a landfill.
- Will not degrade to pollute air or ground water.
- Produced without CFCs or HCFCs.
- May be returned to any of over 25 Instapak® foam return locations worldwide.
